

WHAT LIES BENEATH?

GET ANSWERS TO THE BIG QUESTIONS

Why do sinkholes sink?

What makes Buffalo River bluffs spectacular?

How do they get their shapes and colors?

Why are there more caves in Newton County

than anywhere else in Arkansas?

Where's my swimming hole and why does it have water in late summer when the river has so little??

Come learn about the Buffalo River karst country and *take a field trip to Steel Creek* to find out more with Dr. Van Brahana, Hydrogeologist, Professor Emeritus, U of A, Retired USGS, U of A.

Where: Ponca Elk Education Center

Hwy. 43 in Ponca with big sign

When: Saturday, July 16th, 2016

Time: 10:30-12:30
